Professional Experience

UI/UX Designer & Frontend Developer

03/2023 – Present

Freelance projects

Atlanta, USA

- Designed and developed user-centered websites and landing pages with a focus on responsive design, accessibility, and modern UI/UX principles.
- Created wireframes, prototypes, and high-fidelity designs in Figma, transforming concepts into functional frontend interfaces using HTML, CSS, and JavaScript.
- Built responsive layouts and interactive UI components, ensuring consistency across desktop and mobile devices.
- Collaborated with clients and developers to deliver visually engaging and user-friendly digital experiences.
- Worked on freelance projects for small businesses, handling both the visual design process and frontend implementation.
- Managed multiple client projects simultaneously, delivering high-quality designs on time.

UI Design Specialist

04/2024 – 05/2025

HAB BURO studio 

Cherkasy, Ukraine

- Designed user interfaces for web and mobile products, developing scalable UI components and comprehensive style guides to ensure visual and functional consistency.
- Created UI layouts, visual hierarchies, and pixel-accurate interface designs aligned with client branding and design system rules.
- Developed and maintained comprehensive design systems in Figma, documenting components and usage to streamline developer handoffs.
- Collaborated with cross-functional teams to iterate designs based on usability testing and stakeholder feedback, synthesizing research insights to prioritize features.

Product Designer

11/2023 – 03/2024

FOR® 

Helsinki, Finland

- Designed packaging and visual concepts for diverse client products, aligning with brand identity with user needs and production constraints.
- Managed multiple projects, producing production-ready layouts with detailed typography, color schemes, and visual assets.
- Worked closely with stakeholders to refine designs through iterative testing and feedback loops.

Design Specialist (Product & UX)

12/2023 – 03/2024

Cosmos- Guide for designers 

Atlanta, USA

- Developed UX principles, design guidelines, and UI patterns for educational web content.
- Created user flows, visual hierarchies, and UI components to enhance usability and clarity.
- Ensured design consistency and usability through stakeholder collaboration and usability testing.

UX/UI Designer

Smart HomeApp Startup 

03/2023 – 10/2023

Atlanta, USA

- Designed comprehensive UX/UI for a smart home mobile app, including user flows, wireframes, and high-fidelity prototypes that supported MVP delivery.
- Built and maintained a reusable design system in Figma, organizing components and tokens for efficient development integration.
- Conducted usability testing and iterated designs based on qualitative and quantitative feedback, supporting A/B tests and using analytics to inform changes to onboarding and conversion flows.
- Collaborated with product managers and developers in an Agile environment to deliver prioritized features and prepare detailed UX specifications for engineering.

Live Operations Specialist

YOLO GROUP 

02/2018 – 04/2021

Estonia, Ukraine

- Managed real-time interactive sessions in a live digital environment, ensuring seamless user engagement and platform stability through proactive monitoring and analytical troubleshooting.
- Ensured accuracy and adherence to platform rules during live sessions, maintaining high-quality user experience and attention to detail.
- Communicated with international users in English during live sessions, providing support and fostering engagement through clear verbal and written communication.
- - Worked with streaming tools and real-time interfaces to facilitate dynamic and engaging user experiences, adapting quickly to new technologies and user needs.

Founder & Operations Manager

FamCoffee

04/2021 – 03/2022

Kiev, Ukraine

- Founded and managed a customer-focused business, overseeing operations, customer experience, and day-to-day processes to improve efficiency and service quality.
- Drove customer satisfaction and operational efficiency through process optimization and staff coordination, producing measurable improvements in service delivery.

Summary

Creative UI/UX Designer & Frontend Developer who loves turning ideas into modern and user-friendly digital experiences.

Skilled in Figma, HTML, CSS, JavaScript, Git, and responsive web development, with a strong passion for both beautiful design and clean frontend implementation.

Experienced in building websites from concept to code — from wireframes and prototypes to fully responsive interfaces. Always excited to learn new technologies, solve creative problems, and create products people genuinely enjoy using.
