ANASTASIIA SERHIIEVA

DESIGN ENGINEER | PRODUCT DESIGN & FRONTEND DEVELOPMENT

Atlanta, GA | simitopolis1998@gmail.com | linkedin.com/in/anastasiiaserhiieva
simitopolis.github.io/portfolio | behance.net/5d5ce656

PROFESSIONAL SUMMARY

Design Engineer with 3 years of experience connecting **product design, interactive prototyping, and frontend implementation**. Turns requirements into intuitive user flows, reusable Figma systems, and responsive HTML/CSS/JavaScript interfaces. Adds value beyond the handoff by identifying build constraints early, refining usability through feedback, and taking digital experiences from concept to live deployment.

CORE SKILLS

Product & UX: User flows, information architecture, wireframes, interactive prototypes, UX research, usability checks
Design Systems: Figma, Auto Layout, components & variants, responsive UI, accessibility fundamentals, visual QA, developer handoff
Frontend: HTML5, CSS3, JavaScript (ES6+), responsive implementation, Git/GitHub, debugging, VS Code, GitHub Pages
Creative & AI: Adobe Photoshop, Maya (3D), Jira, ChatGPT, Claude, Midjourney, Figma AI

PROFESSIONAL EXPERIENCE

Design Engineer & Frontend Developer | Freelance / Contract | Mar 2023 - Present | Atlanta, GA

- Owned website delivery from client brief to working interface, turning requirements into UX flows, Figma prototypes, and responsive HTML/CSS/JavaScript.
- Created reusable design components and responsive patterns that kept layouts consistent across pages and made iterative client changes easier to implement.
- Used usability checks and stakeholder feedback to strengthen navigation, content hierarchy, and interaction clarity before release.
- Independently designed, coded, and deployed a live portfolio on GitHub Pages; also published interface concepts including MIDORI and a Smart Home app on Behance.

UI Design Specialist | HAB BURO Studio | Apr 2024 - May 2025 | Cherkasy, Ukraine

- Translated web and mobile product requirements into structured, implementation-ready Figma screens, clarifying decisions for developer handoff.
- Consolidated recurring UI patterns into reusable components, improving visual consistency and making future screen updates easier.
- Worked with stakeholders and developers to align design intent with feedback and practical build constraints.

Product Design Intern | FOR® Agency | Jan 2024 - Apr 2024 | Helsinki, Finland (Remote)

- Turned brand positioning and customer-facing messaging into cohesive visual and packaging concepts for design review.

Founder & Operations Manager | FamCoffee | Apr 2021 - Mar 2022 | Kyiv, Ukraine

- Founded and managed a customer-facing business, using direct customer feedback to refine service workflows and day-to-day operations.

EDUCATION & TRAINING

Mate Academy - UI/UX Design Program (750 hours), 2023-2024

Colt Steele - HTML & CSS Bootcamp (37 hours), 2026

Kyiv University of Culture and Arts - Bachelor's Degree in Journalism, 2016-2020
